REASON FOR TODAY'S CALL:  
 Plugged bathroom sinks and leaky shower hose (needs replacement likely)

DESCRIPTION OF WORK PERFORMED:  
 -I used the PowerSpin drain snake to clear both lavatory drains in the master bathroom. Tested by filling and draining the sinks multiple times. -I replaced the shower hand spray hose in the same bathroom. I believe the reason the last hose started leaking is due to the fact the shower head holder doesn't grip onto the head very well causing it to move around and the hose to bend at a sharp angle. The only way to replace the holder would be to replace the bar as well(measurement from centre to centre of screw holes in tile 24").
