**REASON FOR TODAY'S CALL:**

-replace toilet supply. "There is also a weird problem with the flusher, sometimes it makes a noise if it's not upright, which I don't think is correctly functioning."

**DESCRIPTION OF WORK PERFORMED:**

I replaced the toilet supply line with a new braided stainless type and tested the toilet by flushing multiple times. I did not notice any issues with the flush-valve or flapper. All seem to be in good working order.
