REASON FOR TODAY'S CALL:
Toilet blockage.

DESCRIPTION OF WORK PERFORMED:
I used the 6' toilet auger to clear the toilet blockage in the guest bathroom ensuite and tested by flushing rolled up balls of toilet paper. During testing I noticed the fillvalve was struggling to fill the tank which is likely the reason the toilet clogged(not enough water from the tank when flushed could result in a blockage). I replaced the toilet fillvalve and supply line and tested again.
