REASON FOR TODAY'S CALL:  
 "Ensuite bathtub is plugged. it was draining really slow at first but now it doesn't at all. and when we use the sink the water fills the tub as well. i have tried the plunger thing a few times and nothing.. it seems something other than the usually build up is stuck in there. Apparently you might have to go through the wall behind the tub to drain it. Need a professional!!"

DESCRIPTION OF WORK PERFORMED:  
 I cleared the drain blockage by running the PowerSpin drain snake down both the tub and the lavatory drain. I hair from the drain. Tested by filling the sink and draining and filling the tub 8" and draining.

TECHNICIAN RECOMMENDATIONS:  
 I suggested using a hair screen I the tub drain to help prevent future back ups.
