REASON FOR TODAY'S CALL:
 "Water won't drain in the dishwasher and garburator gets flooded"

DESCRIPTION OF WORK PERFORMED:
 -I unjammed the garburator and tested by filling and draining the sink while running the garburator. I did not notice anything outside of the ordinary in the grinding chamber, there just seemed to be a build up of rust from non use. I also drained the standing water from the dishwasher by running it through a drain cycle. -The shower valve handle was loose and easily falling off, I re-secured the handle by tightening the set screw.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Labour	\$99.00	\$99.00
