REASON FOR TODAY'S CALL:

"Hey! I've got a garbage disposal (Garburator) problem. Flick on the switch, it makes a crummy noise. Perhaps something jammed inside? Wife can't figure it out and I'm out of town for a few days... need professionals."

DESCRIPTION OF WORK PERFORMED:

I unjammed the garburator and tested by filling the sink 6" and draining while running the garburator. I did not find anything out of the ordinary inside the grinding chamber. Whatever caused the blockage was flushed through.
