**REASON FOR TODAY'S CALL:**

- the shower head is spraying water from a place where water shouldn't be spraying from; when advent came by they think it might simply need to be caulked. - when the shower handle is set in the middle, vibration of the pipes is violent and we can sense it through the walls. Advent was not sure if it was a water pressure thing or something else that is contributing t

**DESCRIPTION OF WORK PERFORMED:**

-The shower cartridge was quite stiff and appeared to be the cause of the vibrating noise heard while showering. I replaced the cartridge with new and tested. -The shower spray hose connector was broken. This was not original hardware, originally the shower head was of a standard type. I replaced this broken shower set up with a new Delta shower head and arm.
