REASON FOR TODAY'S CALL:

My kitchen sink is clogged. It is a 2 compartment sink, one compartment has a garburator, the other doesn't. When there is water in either compartment, it doesn't drain. I tried running the garburator - this drains the sink with the garburator but the water level rises in the other sink. I tried plunging each side while running the garburator and trying to plug the side that is not being plunged, but that is not working.

DESCRIPTION OF WORK PERFORMED:

I cleared the kitchen sink drain blockage using the PowerSpin drain snake. Tested by filling both sides of the sink and draining.

| QTY. | CODE | DESCRIPTION | UNIT PRICE | PRICE |
|------|------|--|------------|----------|
| 1 | | Clean drain using PowerSpin / Kitchen sink | \$149.00 | \$149.00 |
