**REASON FOR TODAY'S CALL:**

My food disposal has not been working since I moved in this place two months ago. Last time I put my hand down to the disposer and pulled out a piece of fabric, which I have no idea where it came from. There still seems to have been something stuck in the food disposal.

**DESCRIPTION OF WORK PERFORMED:**

-I unjammed the garburator by removing a piece of fabric and tested by filling and draining the sink while running the garburator. The garburator sounds like there may be something lodged under the grinding chamber but it is still functional.
