**REASON FOR TODAY'S CALL:**

-Wallmount Geberit Toilet making weird noises. Jeff at Cantu said its probably just a washer, but it could also be that the water level is not filling up in the back. - Kitchen sink a small leak, (need this fixed asap, as the new owners do a walk through Oct 7th at 5pm to make sure I took care of this) -Another toilet when flushed makes funny noises. Anytime today would be great if, not tomorrow anytime. :) I will video a short clip of the toilet and send over so you can see. Thank you!

**DESCRIPTION OF WORK PERFORMED:**

---MASTER BATHROOM: The Geberit wall mounted toilet was running. I replaced the flushvalve gasket and cleaned out the flushvalve diaphragm. Tested and in good working order. ---GUEST BATHROOM: The toilet fillvalve sputters when filling, I replaced the fillvalve & supply line and tested. ---KITCHEN SINK: I tested by filling the sink 8" and draining while running the garburator. I found that the kitchen faucet was leaking internally, down to the underside of the sink. I installed a new customer supplied faucet and tested.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace Flush-Valve Gasket - Geberit In-Wall	\$129.00	\$129.00
1		Replace toilet FillValve - TOTO *DISCOUNTED*	\$129.00	\$129.00
