REASON FOR TODAY'S CALL:
 -install customer supplied kitchen faucet.

DESCRIPTION OF WORK PERFORMED:
 -The hot shut off valve under the sink was not working, we located the main shut off valve located in the back corner of the storage closet, and repaired this valve. -
 The faucet supplied could not be installed because the brass threads of the base were not long enough to reach through the countertop so we installed a new Delta Palo faucet(approved by Rish) and tested.
