REASON FOR TODAY'S CALL:
 shower is leaking but not sure of the source...the leak shows up on the floor outside the shower at a low point on the floor

DESCRIPTION OF WORK PERFORMED:
 -I tested the shower by aiming the shower head directly at the drain for 10 minutes, then off the the back corner(glass wall) for another 10 minutes with no sign of moisture under the shower or tub, and no moisture in the corner of the washroom where the leak was reported. I believe what's happening is that while showing water is leaking out under the door, it looks like the rubber seal could use replacing.
