**REASON FOR TODAY'S CALL:**

"1. There is a clog in the bathroom sink. The drain and trap have been cleaned out but the clog remains so it must be further in the line. 2. we would like our garburator removed and regular drain put back in. 3. the inside of the dishwasher smells really bad sometimes so we would like the lines to be placed properly to fix this."

**DESCRIPTION OF WORK PERFORMED:**

-I removed the garburator, installed a basket strainer in its place, and re-piped the ABS drainage. Tested by filling both sinks half way and draining. -I used the PowerSpin drain snake to clear the master bathroom lavatory drain blockage. Tested by filling and draining the sink multiple times.
