REASON FOR TODAY'S CALL:
 Bathroom sink not draining. Removed P-trap underneath, cleaned out a bit of buildup in the pipe going to the wall (about 14") by pulling it out into a bucket and not pushing it in further. Wasn't too bad at all, no full blockage, just some buildup. Re-installed P-trap but sink still not draining. No other issues from sink drain thru P-trap to the wall. Figure just needing a snake...

DESCRIPTION OF WORK PERFORMED:
 I tried to clear the drain using the PowerSpin drain but after many attempts the drain was still blocked. I picked up the K400 and was able to clear the blockage. I tested the drain by filling and draining the sink multiple times
