REASON FOR TODAY'S CALL:  
 Can't turn faucet to adjust water temp. I believe it's the cartridge. \*Teknobil

DESCRIPTION OF WORK PERFORMED:  
 I removed the spout of the faucet and found that the grey plastic spacer that rests between the faucet spout and body does not allow enough space between the two and allows the securing nut to tighten up right against the body not allowing for movement of the handle from left to right. I re-installed the spout without tightening this nut all the way so the faucet can be used.
