REASON FOR TODAY'S CALL:
 Sticky kitchen faucet and possibly a leak around toilet but I suspect it's just condensation

DESCRIPTION OF WORK PERFORMED:
 -The toilet had a lot of condensation around the tank which was dripping onto the floor. I dried the outside of the toilet as well as the floor around the toilet. Flushed multiple time and saw no leaking coming from under the toilet, only condensation accumulating on the exterior of the toilet. -The kitchen faucet was a little stiff but not too bad. If the tenants would like this issue removed the faucet would have to be replaced.
