REASON FOR TODAY'S CALL:
 Tub drain leaking again. Last repaired in June of 2012 *might not be home till 9:10

DESCRIPTION OF WORK PERFORMED:
 -I lifted the tub insert and found that the glued connection between the vertical drain and the tee had come apart and the tee had a hairline crack in it. I re-glued this connection and used a gear clamp around the hub of the tee connection. Tested by filling the tub, letting it run through the overflow for a few minutes, and draining the tub.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1.5		Labour	\$99.00	\$148.50
