PHONE 6049080119		EMAIL Ashleydianamorris@gmail.com	

REASON FOR TODAY'S CALL:
 We need our bathroom sink reattached and tested for leaks.

DESCRIPTION OF WORK PERFORMED:
 -The drain tail piece was disconnected, I reconnected the tailpiece and then noticed the sink had been shifted off centre to the right. I re-entered the sink and tested by filling and draining the sink. There was water leaking from the connection between the bottom of the sink and the drain assembly. I tightened the nut that secures the drain assembly to the sink and tested again by filling and draining the sink multiple times. There are no signs of leaking.
