REASON FOR TODAY'S CALL:

The garburator is not working and hasn't for a while, either it's clogged or needs replacing... it makes an odd noise when I flip the switch. I also need some faucet cartridges to be replaced, one in the bathroom sink and one in the bathroom shower. (I have the cartridges already from k35b)

DESCRIPTION OF WORK PERFORMED:

---Garburator: I unjammed the garburator and tested by filling draining the sink while running the garburator. Nothing was pulled out of the grinding chamber, whatever caused it to seize up was flushed through. ---Tub/Shower & Lavatory: I replaced the cartridges in the master lavatory faucet and shower valve(customer supplied). --Tub Drain: I used the PowerSpin drain snake to clear hair from the master tub drain.
