REASON FOR TODAY'S CALL:

Hi there! I have two problems - the garburator is leaking and when it's used it fills up the second sink with water. Also - in the bathroom the switch to flip the bathtub to shower isn't working properly and more water comes into the tub then through the shower. Thanks!

DESCRIPTION OF WORK PERFORMED:

-I replaced the garburator with new and used the PowerSpin drain snake to clean the kitchen sink drain. Tested by filling and draining both sides of the sink while running the garburator. - I replaced the tub spout with a new Delta pull-down type diverter and tested. -I also removed a large clump of hair from the lavatory drain and tested by filling and draining multiple times.
