REASON FOR TODAY'S CALL:  
 Taps in master bedroom are leaking. \*When you get buzzed in you will head to the elevators and hit 5 south Atrium.

DESCRIPTION OF WORK PERFORMED:  
 ---Feb3: Took pictures and tracked down replacement parts. ---April8: I returned with the replacement cartridges and o-rings, installed and tested. I also cleared hair from the left lavatory sink drain.

TECHNICIAN RECOMMENDATIONS:  
 During testing I noticed the right side faucet stopper pull rod has corrosion in the finish causing friction when the rod is lifted to close the drain. I informed Stewart of this and suggested not using the stopper on this side of sink as much to prevent wearing out the o-ring seals located under the faucet.
