REASON FOR TODAY'S CALL:

"my ex husband installed a new trim for me while I was out of town. All the plumbing stores are telling me I need to rip out the walls to install new trim because my condo is so old. The Moen stuff I have in there now will not be compatible. Can I pay you to come take a look please?"

DESCRIPTION OF WORK PERFORMED:

-The shower valve handle was stiff to turn, I replaced the positemp cartridge. The valve is located slightly too far into the wall, I added a spacer when re-installing the handle so it doesn't rub on the trim. -I ran the tub and shower with the trim plate removed and saw no signs of leaking in behind the tile.
