REASON FOR TODAY'S CALL:  
 The faucet is leaking in the master bathroom, where double sink is (the right one)

DESCRIPTION OF WORK PERFORMED:  
 ---March9: I made a visit to the unit and found that the master lavatory faucet(right sink) was stripped. I re-attacehd the handle securing it with the set screw but it will loosen again. Although the left sink faucet is still functional it is very stiff to turn and will likely fail like the right one did. I will reach out to Paini and inquire about replacement parts. ---Apr7: I replaced the cartridges and handles in both master bathroom lavatory faucets.
