REASON FOR TODAY'S CALL:

The garburator does not turn on and the sink doesn't drain properly. I believe the garburator and pipes have been clogged by the previous tenants. There is a foul sour smell coming from the sink and the dishwasher (which is properly connected to the sink pipes) I just moved in and have been without a kitchen sink for about a month now so this is very urgent!

DESCRIPTION OF WORK PERFORMED:

-I unjammed the garburator and tested by filling and draining the sink multiple times while running the garburator. I also ran the dishwasher through a short fill & drain cycle and it seems to be in good working order. -I did not find anything out of the ordinary inside the garburator grinding chamber, whatever caused the blockage was broken up and flushed through.
