REASON FOR TODAY'S CALL:

This is the text from my tenant today: The faucet of the shower is malfunctioning. I need to pull the handle of the faucet a little bit harder in order to get hot water to flow to the shower head. I experienced a similar problem before you took ownership of the unit and the previous owner changed the faucet. As far as I remember the problem was caused by faulty gaskets. *call Dean upon arrival

DESCRIPTION OF WORK PERFORMED:

I replaced the mixing and pressure balancing cartridges. Tested and in good working order.
