REASON FOR TODAY'S CALL:  
 Toilet has lost its ability to flush with force. It is a Eco friendly 2or 6 l flush if I remember correctly

DESCRIPTION OF WORK PERFORMED:  
 -The toilet was flushing very slowly. I ran the 6' toilet auger through the toilet but found no obstruction. I then noticed that was was draining slowly out of the tank itself. I used a coat hanger to clear out some deposits in the outlet at the base of the bowl. Tested and working well.
