**REASON FOR TODAY'S CALL:**

Our kitchen sink is backed up. It may be associated with our dishwasher that has also been acting up lately and leaking a bit. We have tried drano and vinegar and baking soda but nothing is working and it is completely clogged.

**DESCRIPTION OF WORK PERFORMED:**

-I used the PowerSpin drain snake to clear the kitchen sink drain blockage and tested by filling both sides of the sink and draining while running the garburator. I then ran the dishwasher through a few fill/drain cycles to empty the standing water.
