REASON FOR TODAY'S CALL:
 The kitchen sink is apparently leaking into the suite below.

DESCRIPTION OF WORK PERFORMED:
 The tenant reported having difficulty turning the faucet to the fully off position. The handle did seem a little stiff but I could turn it off. There was also a small leak coming from where the spout connects to the faucet. I used a Delta faucet rebuild kit to repair the faucet by replacing the spout o-rings, seats & springs, and lever cap. Tested and no leaks present.
