REASON FOR TODAY'S CALL:

There is a slight leak from the bathroom sink into the vanity. The vanity is very old and there is some signs of water damage from years ago but this is a new issue. I own the suite but was notified of the problem by my tenants. As I won't be there while the repair is taking place I would like to be informed if possible of any work that needs to be done with a quote before the work is completed. Thank-you!

DESCRIPTION OF WORK PERFORMED:

---Sep22: I made a trip to the unit and found that water was leaking internally through the faucet. It will have to be replaced. ---Sep22: I supplied and installed a new single handle Delta lavatory faucet and tested by filling and draining the sink multiple times. No other leaks present.
