REASON FOR TODAY'S CALL:  
Garburator not draining

DESCRIPTION OF WORK PERFORMED:  
I unjammed the garburator by removing a few small hard bits that looked like rock or possibly metal and tested by filling and draining the sink multiple times while running the garburator. During testing I noticed a loud vibrating sound emanating from the right side of the sink. I took a look under the sink and found one of the sink clips to be loose, I tightened this clip and tested again. I also showed the tenant how the garburator can be free'd up in the chance that it seizes up again in the future.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Labour	\$109.00	\$109.00
SUBTOTAL:				\$109.00
GST (5%):				\$5.45
TOTAL:				\$114.45
