REASON FOR TODAY'S CALL:

the shower head does not actually fit within the bar handle, we suspect that the owner or someone previous had changed the previous shower head (there was an extra shower head in the washroom cupboard) but the one in the shower changed does not fit the bar so it actually falls off when you try to rotate it to the front side.

DESCRIPTION OF WORK PERFORMED:

The shower hose was replaced at some point with a hose that didn't fit with the bracket meant to hold it. I replaced the hose with one of a type that did fit and tested.
