REASON FOR TODAY'S CALL:
Backed up double kitchen sink w garburator

DESCRIPTION OF WORK PERFORMED:
-I used the PowerSpin drain snake to clear the kitchen sink drain blockage. Tested by filling and draining both sides of the sink multiple times while running the garburator. -The garburator mounting bracket was not properly secured to the sink, one of the three screws was loose and one was missing all together. I tightened the loose screw and installed a new one where missing.
