**REASON FOR TODAY'S CALL:**

Hi Darren. my friend recommended to contact you. i have a double sink in my kitchen. The right sink is backed up with water and its the same side that the Garburator is in. The garburator isn't working. i can hear there is power when i click the switch on but its not working. Please also advise how much your rate is. i'm taking this Monday Nov 7 off work so its the best time to come in and take a look.

**DESCRIPTION OF WORK PERFORMED:**

I was able to unjam the garburator by removing a layer of rust and tested by filling and draining the sink while running the garburator.
