REASON FOR TODAY'S CALL:
clogged bathroom sink

DESCRIPTION OF WORK PERFORMED:

-I used the PowerSpin drain snake to clean the lavatory sink drain and tested by filling and draining the sink multiple times. -While onsite Hunter mentioned the left side of the kitchen sink wasn't draining. There was a bunch of gunk in the sink strainer, I cleared this out and both sides of the sink are now draining freely. -The kitchen faucet was not secured to the countertop, I tightened the nut that secures the faucet but the faucet itself is very stiff to turn side to side and this will likely cause this securing nut to loosen again over time. If this nut does loosen again I would suggest replacing the faucet.
