REASON FOR TODAY'S CALL:
 I have a leaking kitchen faucet. Also, according to the City of Vancouver's toilet dye tests they sent out both my toilets are leaking.

DESCRIPTION OF WORK PERFORMED:
 ---Kitchen Faucet: The nut securing the spray hose in place was loose. I tightened this nut and tested. ---Toilets: -The guest bathroom toilet is flushing normally. -The master bathroom toilet FillValve was malfunctioning, not shutting the flow of water off when the tank was full. I replaced this FillValve, as well as the supply line and tested.
