REASON FOR TODAY'S CALL:

1. Our bathtub is having a hard time mixing hot and cold water--it's either freezing or scalding. 2. We would like to replace our kitchen faucet.

DESCRIPTION OF WORK PERFORMED:

-The cartridges in the master bathroom were full of debris that I could not fully clear out. I first flushed the Hot & Cold lines through the valve, then I installed the new pressure balance and mixing cartridges. Tested and in good working order. -The kitchen faucet spray head button was broken, I suggested calling Kohler and having them send out a new head under warranty.
