REASON FOR TODAY'S CALL:  
 my toilet bowl is leaking slowly at the back., It is also having some trouble flushing quickly, feeling like it is clogged up easily

DESCRIPTION OF WORK PERFORMED:  
 There is a hairline crack in the top of the toilet bowl which is allowing water to leak out when flushed. It will have to be replaced. I suggested visiting Splashes on Broadway.

TECHNICIAN RECOMMENDATIONS:  
 Toilet: 12" rough in, round front, no height restriction.
