REASON FOR TODAY'S CALL:

I have a very slow draining bathroom sink. I have pulled some hair etc up from the top and I have also taken off and emptied the P trap and it still is draining very slow. I don't know if the clog is further down past the P trap?? Everything seems clear on the sink side of the P trap.

DESCRIPTION OF WORK PERFORMED:

I used the PowerSpin drain snake to clean the lavatory sink drain and tested by filling and draining the sink multiple times.
