REASON FOR TODAY'S CALL:

Downstairs neighbour said the wall right above his showerhead is wet. My guess is it is the gap between the faucet and the wall that might be leaking down since that seems to be the place the water hits the most when showering. If you can please send me a quote and when would be the soonest you can check it, I would really appreciate it. Thank you and have a great day! Ali

DESCRIPTION OF WORK PERFORMED:

-The tub spout was leaking at the connection to the wall, I added silicone the space around the copper pipe coming through the tile and installed a new Delta pull-down type diverter spout. -We also replaced the tub drain trim as this looked to be the original and Ali wanted to make sure this wasn't contributing to the leaking. - There was no visible leaking from the shower head connection or the shower valve.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace Standard Tub Spout Diverter	\$159.00	\$159.00
1		Replace Tub Drain Trim - ADD-ON PRICING	\$89.00	\$89.00
