REASON FOR TODAY'S CALL:
 The garburator is not working. When pressing the switch, it just makes a sound but does nothing.

DESCRIPTION OF WORK PERFORMED:
 I unjammed the garburator by removing a few pieces of plastic and a rubber band. Tested by filling and draining the sink multiple times while running the garburator. I also ran the dishwasher through a fill/drain cycle to clear the standing water inside.

TECHNICIAN RECOMMENDATIONS:
 I informed the tenant that even if she is not using the garburator it must be run periodically to ensure it remains functional.
