REASON FOR TODAY'S CALL:
 Toilet is leaking from the bottom of the rim . Kitchen tap needs to be sealed (hillcrest did a horrible job)!

DESCRIPTION OF WORK PERFORMED:
 -The toilet was leaking between the toilet and the floor. I lifted the toilet and found the wax seal to be compromised. I cleaned the floor and the underside of the toilet and re-set the toilet with a new wax seal and supply line. Tested and no leaks present. -The nut that secures the kitchen faucet worked itself loose and only had 1 of the 3 bolts in it that were meant to secure it in place. I found one of the other bolts on the floor of the cabinet but the 3rd could not be seen. I tightened the nut and used the 2 bolts to secure it in place. The cover plate of the faucet is plastic and overtightening this securing nut could crack it.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace Toilet Wax Seal - Standard	\$189.00	\$189.00
			SUBTOTAL:	\$189.00
			GST (5%):	\$9.45
