REASON FOR TODAY'S CALL:
Toilet leaking *refer to email thread with Jeremy *no buzzer

DESCRIPTION OF WORK PERFORMED:
When I arrived onsite the toilet was running and there was quite a bit of condensation around the tank and Bowl. This condensation was finding its way onto the floor. I lifted the toilet to inspect underneath and found that the wax seal was starting to deteriorate, allowing small amounts of moisture to escape. I re-set the toilet with a new MaxWax wax ring, replaced the FillValve with new, and installed a new supply line. Tested and in good working order.
