**REASON FOR TODAY'S CALL:**

I've spoken to Darren over the phone already and it appears to be a clogged garburator. The unit is inhabited by my tenants (Michael will most likely be the one on site)

**DESCRIPTION OF WORK PERFORMED:**

I unjammed the garburator and tested by filling and draining the sink multiple times while running the garburator. I could find anything out of the ordinary within the grinding chamber, whatever caused the garburator to seize up would have been pushed through and flushed away.
