REASON FOR TODAY'S CALL:

Our garburator stopped working and when we run the dishwasher the sink does not drain probably due to clogged food. I've attached a picture of the sink and the type of garburator that we currently have. I know it may be difficult to determine the issue and cost but hoping we can get a rough idea of time and cost to fix. thank you, /j

DESCRIPTION OF WORK PERFORMED:

The power cord was attached without a clamp to secure it which allowed the cord to detach from the garburator. I reattached the power cord and used an electrical clamp to secure it in place. The garburator was also jammed, I removed a small bracelet or necklace from the grinding chamber and tested by filling and draining the sink multiple times while running the garburator.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Labour	\$109.00	\$109.00
SUBTOTAL:				\$109.00
GST (5%):				\$5.45
TOTAL:				\$114.45
