REASON FOR TODAY'S CALL:

The garburator, installed in 2013 by you seems to have died. I pushed the rest button, and I can hear the motor, but it isn't connecting with the blades. Supposedly there is a 5 year guarantee.....

DESCRIPTION OF WORK PERFORMED:

The garburator (installed 2010, according to serial number) was showing signs of leaking through the bottom. I replaced the garburator with a new Badger5 and tested by filling and draining the sink multiple times while running the garburator.
