**REASON FOR TODAY'S CALL:**

The kitchen drain is clogged, if I run the water for 10-15seconds, it starts to fill up the sink and it drains really slowly. I've tried using draino and it helped only a tiny bit. Not sure if you can see in the pictures, but there's a thin layer of water in both sides of the sink. I also bought a new kitchen faucet from ikea and want to replace it with the existing one. I've also uploaded pictures of the current faucet and the one that was bought from ikea

**DESCRIPTION OF WORK PERFORMED:**

-I used the PowerSpin drain snake to clear the kitchen sink drainage. Tested by filling and draining both sides of the sink multiple times while running the garburator. - The Hot shut off valve under the kitchen sink(connected to faucet) is not working. This valve will have to be repaired before the faucet can be replaced. Unfortunately there is no main shut off valve for the kitchen within the unit and a water shut down will have to be scheduled.

**TECHNICIAN RECOMMENDATIONS:**

\*although the Cold valve under the kitchen sink seems to be working I would highly recommend repairing this valve at the same time as the Hot to mitigate the chances of it failing in the near future.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Clean drain using PowerSpin / Kitchen sink	\$159.00	\$159.00
			SUBTOTAL:	\$159.00
			GST (5%):	\$7.95
			TOTAL:	\$166.95
