REASON FOR TODAY'S CALL:
 Bathroom faucet leaking slowly and now water running on to the floor Can i send you pictures later

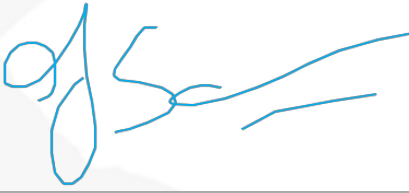

DESCRIPTION OF WORK PERFORMED:
 -The nut securing the cartridge in place was loose, allowing water to leak out onto the countertop. I tightened this nut and tested. No leaks present. -The pop-up drain stopper was stuck. I tried to loosen it up and it is now working better but still sticky when opened or closed. This may have to be replaced if it is a problem for the tenant.
