**REASON FOR TODAY'S CALL:**

Hi there - My sink is leaking... it seems like its coming from the upper seal. I have attached some photos of the pipe and you can see the water dripping down. It doesn't leak all the time, but only sometimes. (Mostly when the water is on for a long period of time - then it starts to drip). Thanks, Allison

**DESCRIPTION OF WORK PERFORMED:**

The mounting bracket ring was loose. I tightened this nut and tested by filling and draining the sink multiple times while running the garburator.
