REASON FOR TODAY'S CALL:
garburator jammed toilet lever sticking

DESCRIPTION OF WORK PERFORMED:
 ---Apr10: -I was able to unjam the garburator by removing 2 small pieces of hard plastic and tested by filling and draining the sink multiple times while running the garburator. -I tried to adjust the Lever handle but the screw holding it together is seized up. I will have to order a new lever from Kohler. The flapper seems to be working fine. ---May3: I returned with the new tank Lever and installed. Tested and in good working order.
