REASON FOR TODAY'S CALL:
Leak under kitchen sink *give 15 minute heads up.

DESCRIPTION OF WORK PERFORMED:
I found the leak to be coming from the connection between the kitchen sink(left side) strainer assembly and the adaptor that connects to it. Also the Ptrap union connection was glued together and could not properly be disconnected. I repiped the ABS drainage and tested by filling and draining both sides of the sink multiple times. There are no other signs of leaking.
